SUMMARY

Computer Engineering student experienced in Go, React Native, and Next.js. Proficient in designing PostgreSQL/MS SQL database architectures, mobile applications, and corporate web solutions. Focused on developing performance-oriented, SEO-friendly, and scalable software products.

EDUCATION

Bachelor's Degree in Computer Engineering
Selçuk University

Expected June 2027
Konya, Türkiye

WORK EXPERIENCE

Freelance Web Developer

January 2026 – Present

B2B Commercial Projects (Real Art Mimarlık, Trimless LED)

Remote

- Developed, deployed, and managed end-to-end corporate websites built with **Next.js**.
- Increased search engine visibility and loading performance through technical SEO and PageSpeed optimizations.
- Installed and configured **hosting, domains, and cloud services** in line with client requirements.

IT Intern

July 2025 – August 2025

Ordu University

Ordu, Türkiye

- Developed the full-stack architecture of the ODUREZ (University Reservation System) project using **Go** and **React Native**.
- Performed system maintenance, network configurations, and provided technical support for academic staff within the IT infrastructure.

PROJECTS

Yerindenal – Marketplace Platform | Go, Next.js, Docker, TÜBİTAK 2209-A

April 2025 – April 2026

- Managed the budget and development schedule as the **Project Lead** under the TÜBİTAK 2209-A program.
- Standardized the integration between development and production environments through **Docker** containerization.
- Developed over 10 core modules (messaging, bidding system, listing management, etc.) with a scalable architecture using **Go (Fiber)** and **PostgreSQL**.

Sona – AI-Powered Personal Relationship Coach | React Native, Gemini API, Expo

December 2025

- Developed a **React Native** mobile application providing personalized, context-focused recommendations using **Gemini API** integration and prompt engineering.
- Designed and implemented premium, minimalist application interfaces based on modern UI/UX principles to deliver a high-quality user experience.

TECHNICAL SKILLS

Languages: Go, TypeScript, SQL (PostgreSQL, T-SQL), JavaScript, Python.

Frontend: React Native, Next.js, Expo, Tailwind CSS.

Backend: Go Fiber, REST API, WebSocket, JWT.

Cloud & Tools: Docker, PostgreSQL, Redis, GCP, Git, Postman.

AI & Other: Gemini AI (LLM Integration), Prompt Engineering, Technical SEO.
